

The 2<sup>nd</sup> International Conference on SERS  
第二届表面增强拉曼光谱国际会议

November 6-9, 2019  
TONGLI Lakeview Hotel

## Second Announcement of the 2<sup>nd</sup> International Conference on SERS (SERS-2019)

### About Conference

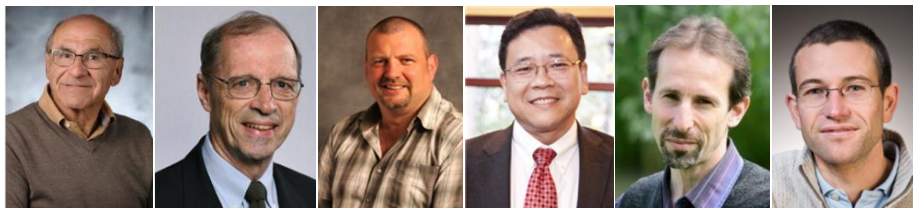

The 2<sup>nd</sup> International Conference on SERS will be held during November 6-9, 2019 in TONGLI Lakeview Hotel, Suzhou, China. This conference aims to bring together scientists working on all aspects of SERS, from all over the world to discuss the development and propose the future direction of SERS. It will also serve as a platform for the reunion of old friends.

### Conference Format

The official language of the conference will be English. The conference will remain a single session format and will have plenary lectures, keynote talks, invited talks, oral presentations, and poster presentations. **Best Poster Awards** will be presented to the best poster presenters during the conference. More information about invited talks can be found on this website (<http://clsers.suda.edu.cn/SERS2019/Home/InvitedSpeakers>).

### Plenary lectures

1. Martin Moskovits, University of California Santa Barbara, USA
2. George C. Schatz, Northwestern University, USA
3. Duncan Graham, University of Strathclyde, UK
4. Shuming Nie, Nanjing University, China
5. Jeremy J. Baumberg, University of Cambridge, UK
6. Eric Le Ru, Victoria University of Wellington, New Zealand

## Invited speakers

| Name                 | Institution                                                                    |
|----------------------|--------------------------------------------------------------------------------|
| Jeremy J. Baumberg   | University of Cambridge, UK                                                    |
| Duncan Graham        | University of Strathclyde, UK                                                  |
| Eric Le Ru           | Victoria University of Wellington, New Zealand                                 |
| Martin Moskovits     | University of California Santa Barbara, USA                                    |
| Shuming Nie          | Nanjing University, China                                                      |
| George C. Schatz     | Northwestern University, USA                                                   |
| Steven Bell          | Queen's University Belfast, UK                                                 |
| Wen-Bin Cai          | Fudan University, China                                                        |
| Jon Camden           | University of Notre Dame, USA                                                  |
| Zhuo Chen            | Hunan University, China                                                        |
| Jaebum Choo          | Chung-Ang University, South Korea                                              |
| Hongwei Duan         | Nanyang Technological University, Singapore                                    |
| Pietro G. Gucciardi  | CNR Institute for Chemical Physical Processes, Italy                           |
| Shangjr Gwo          | National Tsing-Hua University, Taiwan, China                                   |
| Katsuyoshi Ikeda     | Nagoya Institute of Technology, Japan                                          |
| Tamitake Itoh        | National Institute of Advanced Industrial Science and Technology (AIST), Japan |
| Ki-Hun Jeong         | Korea Advanced Institute of Science and Technology, South Korea                |
| Sang-Woo Joo         | Soongsil University, South Korea                                               |
| Alexei A. Kornyshev  | Imperial College London, UK                                                    |
| Jian-Feng Li         | Xiamen University, China                                                       |
| Yi-Tao Long          | Nanjing University, China                                                      |
| Hua Kuang            | Jiangnan University, China                                                     |
| Jorge Perez-Juste    | Universidade de Vigo, Spain                                                    |
| Ramon Alvarez Puebla | University of Rovira and Virgili, Spain                                        |
| Sebastian Schlücker  | University of Duisburg-Essen, Germany                                          |

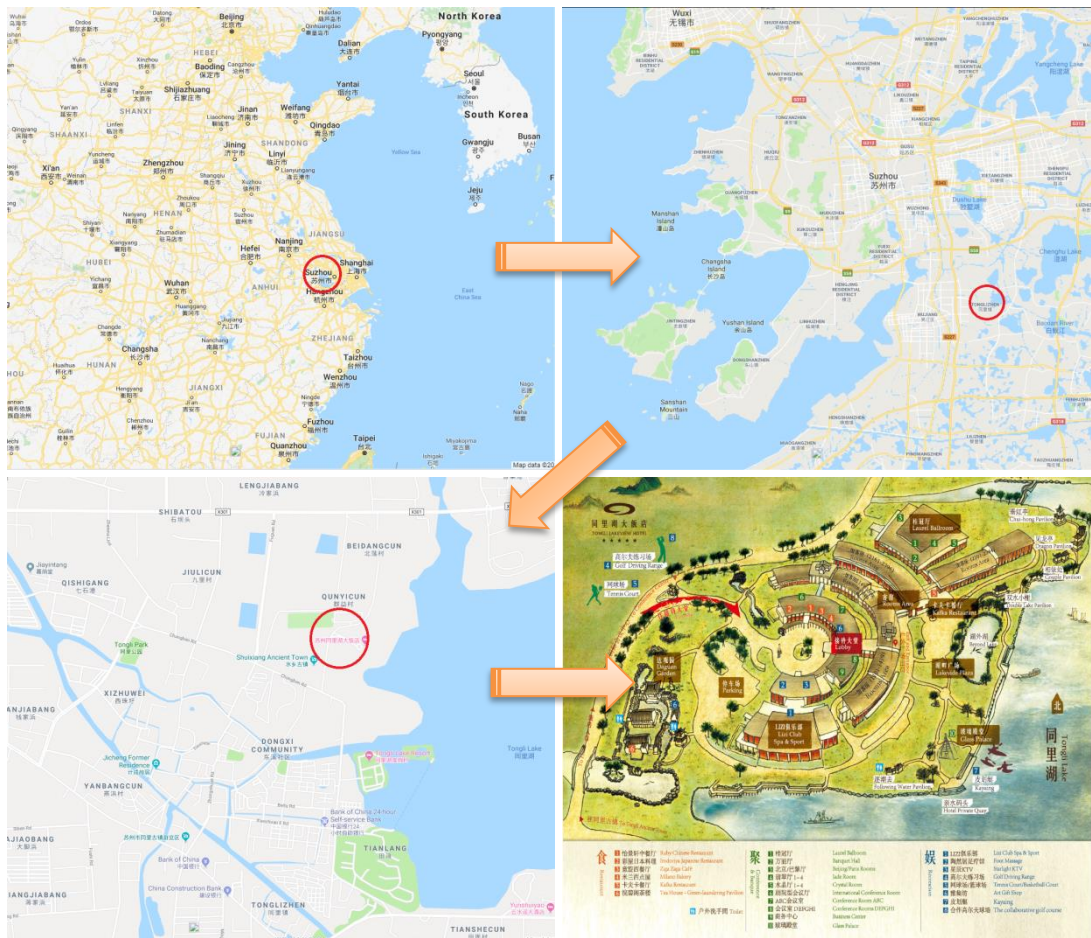

|                  |                                                                                 |
